BMW M2 CUP

The BMW M2 Cup is the perfect talent forge for young GT talent in this up-and coming one-make cup, entering its third season!

In order to guarantee perfect fairness in terms of material, drivers are randomly assigned their race car for each event. Supporting the DTM for six events, the BMW M2 Cup is the place to watch tomorrow's superstars come of age.

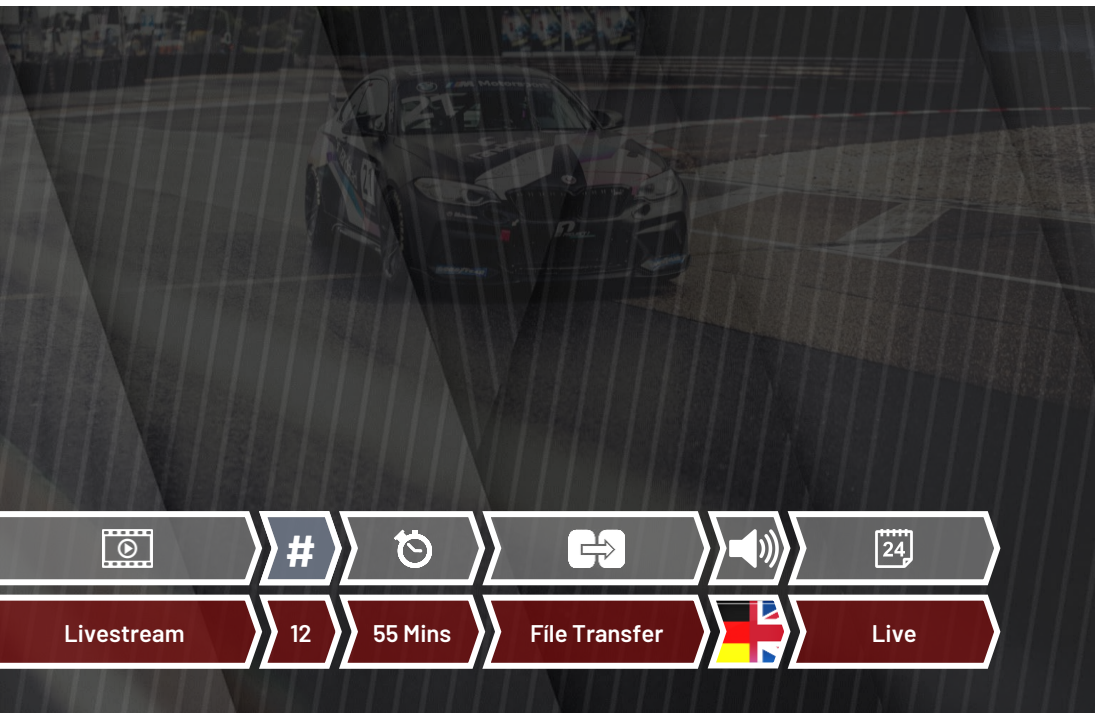

- The talent forge on identical BMW M2 CS Racing models
- Strong talents from Europe and beyond match their wits
- Already, BMW M2 Cup alumni are making waves in other racing series
- Twelve races, held right ahead of the DTM race
